Product Description

New York, rainy weather: the streets are your stage and the many people with their umbrellas are your performers. From above, it looks like they are performing a dance. Can you get them into the right formation? In Umbrella, players take on the role of talented directors in the vibrant metropolis of New York. In the pouring rain, it's up to you to direct the passers-by with their colourful umbrellas so that they perform a perfect choreography on the wet city streets. Viewed from above, it looks like a precisely rehearsed dance - but it takes skill and strategy to get the people into the right formation. This strategic family game skilfully combines logic, tactics and trains spatial awareness. - Exciting sliding mechanism- Innovative game mechanisms- Illustrations by Vincent Dutrait- Number of players 1 - 4- Suitable for players aged 8 and over- Playing time approx. 30 minutes Caution! Not suitable for children under 8 years.
