### Product Description

Just like the popular UNO game, the aim of UNO Minecraft is to be the first player to discard all the cards. But in this version, the cards feature characters and pictures from Minecraft, and there's a special rule! If the last card in a player's hand matches the card currently on top of the discard pile, the player collects points for cards that their opponents still have in their hand. And there are new action cards in UNO Minecraft: when the player draws the Creeper card, they show it to the other players, who then have to draw three more cards! The winner is the first player to have 500 points. Very important: If you only have one card left in your hand, you must call UNO! Once you start, you never stop. Important information Caution! Not suitable for children under 36 months.
