Product Description

Yellow, blue, red and green flowers form a beautiful flower meadow. But how do you lay out your meadow to make your points grow? Each turn, you place a flower card and try to form large, single-coloured groups. Place the butterflies skilfully and victory is yours! Simple rules and yet tricky decisions? All this with a very positive game feel? And there's interaction too? Flowers offers great gameplay value in its small box. In your turn, you take one of the cards on display and place it in your flower meadow. However, you should make sure that you fulfil the card's condition: A 1 may not lie next to another 1. A 2 must be placed in a group of two, a 3 in a group of three and a 4 in a group of four. The colours do not matter, but only large groups of the same colour score points. You get extra points for butterflies that are placed correctly. Fortunately, you can also place cards on other cards, which has often been the decisive factor in winning. The summer variant is recommended for all those who like even more variation on their flower meadow, as it makes the placement even trickier. -Tricky and simple at the same time! -High replay value -Solo play, incl. summer variant Number of players 1 - 4 Suitable for ages 7 and up Packaging 194 x 101 x 33 mm
