Product Description

Today is a good day to die! "We fight not only to shed blood, but to enrich our spirit." - Emperor Kahless II. The Klingon Empire Core Rulebook for the Star Trek Adventures Roleplaying Game takes you to the most unexplored regions of the galaxy, where new worlds and new civilisations await brave Klingon warriors thirsting for glory and honour. Your mission could take you to the edge of known space, to a Klingon colony in distress, to the border of a neighbouring galactic power, or into the heart of a dangerous interstellar phenomenon. The crew of your warship is made up of the most highly trained and honourable Klingon warriors, whose cunning and skill are needed now more than ever. A new threat approaches from the Gamma Quadrant, a worthy adversary for the inhabitants of the Alpha and Beta Quadrants. Tensions are rising and it is still unclear what role the Klingon Empire will play in it. These are dicey times for the Empire, but its fearless warriors and brave crews stand ready to take up the fight against any adversary that opposes them. This Star Trek Adventures core rulebook contains: - Detailed information on how to create your own Klingon-centric stories of honour and glory on the final frontier. - A complete and revised version of the 2W20 game system for Star Trek Adventures. - A comprehensive study of the Klingon Empire, including its history, culture, worlds, society, warships, technology and more. - Instructions for both new and experienced game masters on how to run missions and campaigns of conquest and exploration in the Star Trek universe for the brave crew of a Klingon warship. - An extensive selection of Klingon non-player characters from all eras of the game, as well as many enemies, including Federation, Cardassian, Romulan, Borg, Dominion, and their starships. - Excerpts from historical documents, personal logs, and intercepted subspace messages that provide a fresh look at established events in the Star Trek universe. - All brought to you by a development team of Star Trek experts, including award-winning Star Trek writers, editors and game developers.
