Product Description

Fans of UNO card games will love the family game UNO Quatro. The challenge is to form a row of four while trying to find a matching colour or number. When it's the players' turn, they place their tiles in one of the 7 compartments and try to strategically place the tiles so that they form a row of four. The tiles must touch another tile of the same colour or number. Special action tiles change the game: other players have to make do with fewer tiles, a tile is pushed out of a compartment or the position of two compartments is swapped! The game is a great gift for UNO fans and game lovers aged 7 and over.
