Product Description

Phase 10 Flip, developed by the makers of the card game UNO, literally turns the classic card game Phase 10 on its head! Here too, players have to complete 10 phases as quickly as possible, but there are some unexpected twists waiting for them - for example, the cards are printed on both sides and there are special FLIP cards. On one side of the cards are the usual colours, but the other side of the cards is COMPLETELY CRAZY! As the aim of this game is to complete sequences in one colour, players have to be strategic: either they turn their cards to the "crazy side" to complete their phases faster, or they turn them back to the coloured side to stop their opponents. This fun card game for the whole family is just the thing for children aged 7 and over. Colour and design may vary.
