Product Description

There's a lot going on in the chicken yard, because Glucki and his feathered friends are on an exciting mission: to conquer the chicken ladder! Who will manage to reach the top and become the 'premium chicken'? At the start of each round, the 'flutter number' determines how much momentum is needed to get up the chicken ladder. Now use your five dice to get the perfect amount of momentum on the flutter track. The right amount of acceleration and skilful use of the dice values is crucial - because if you're not careful, you won't fly up, you'll fly down. If you lose control of your piste chicken, you can equip yourself with springs. These allow you to "cushion" risky manoeuvres or perform even more daring high-altitude flights. If you are tactically clever and also have a bit of luck with the dice, you will climb the chicken ladder in top position and win. Important information Warning! Not suitable for children under 36 months.
