### Product Description

Jaguar 1 rocket-propelled tank model kit: True to detail on a scale of 1:35 for ambitious modellers. Discover the model kit of the legendary Jaguar 1 rocket fighter tank, a remarkable piece of military history. This model impresses with its accurate representation and is produced on a scale of 1:35, making it an impressive display piece. With a total of 197 parts, it offers modellers a challenging yet rewarding experience. The dimensions of the finished model are impressive: a length of 194 mm, a height of 71 mm and a width of 89 mm. This model is recommended for ages 12 and up. Included- 197 highly detailed components- Options for different versions (A1/A2, A3)- Detailed panels and an anti-aircraft machine gun- Clear instructions for smooth assembly- High-quality decals for authentic markings- This kit is ideal for advanced modellers (level 4). It requires experience in gluing and painting models and offers the perfect challenge for modelling enthusiasts who want to develop their skills. Special features Authentic reproduction of the finest surface details that emphasise the historical accuracy of the Jaguar 1. Various build variants (A1/A2, A3) that allow for customisation and personalisation. A detailed anti-aircraft machine gun that gives the model additional realism. Background information The Jaguar 1 rocket-propelled tank destroyer, introduced in the 1970s, was an essential component of the German Bundeswehr. Equipped with the powerful HOT anti-aircraft missile, it was capable of effectively engaging armoured targets at long range. Its high cross-country mobility made it versatile in various military scenarios. This model kit not only captures the technical aspects of the Jaguar 1, but is also a tribute to its significant role in military history. Details- Width: 8.9 cm- Length: 18.8 cm- Height: 7.1 cm- Item no. 03353- Recommended age: 12- Scale: 1:35- Individual parts: 197
