Product Description

Fascinating ... "It is the unknown that defines our lives. We are constantly searching, not only for answers to our questions, but also for new questions." - Commander Benjamin Sisko

This Science Division rules supplement provides game masters and players with a wealth of new material for Star Trek Adventures, especially for characters in the Science Division.

The Science Division Rules Expansion contains:- A detailed description of the Science Division, including both the Science and Medical Divisions, as well as details on the Exploration Division and Starfleet Medical Services.- An expanded list of focuses and additional talents for science characters and medical personnel, as well as new character options for cybernetic and genetic enhancements.- Notes on incorporating completely alien and unique species, as well as details on how to incorporate space anomalies, parallel universes, the Q, and time travel into missions.- A listing of medical equipment and pharmaceuticals, including rules on how to use them in the game.- Instructions for creating plot components for your missions that are tailored to scientists and medical personnel, as well as background information on the use of ship counsellors in the game.- Rules for creating entirely new, completely alien species, how to integrate hazards and dangerous environments into scenes, as well as new game mechanics for diseases and other biological hazards.- Detailed descriptions, descriptions and game values. Detailed descriptions and play values for numerous NPCs and supporting characters specialising in science or medicine, including Carol Marcus, Noonian Soon and Zefram Cochrane.

This book requires the Star Trek Adventures Core Rulebook.

Features:- Size: 2cm x 31cm x 22cm- Weight: 590 g- Content: approx. 128 pages, hardcover
