Product Description

What awaits us out there ... "There is no certainty in space. There is only the unexpected. And there are wonders and surprises to fulfil every need and desire. But it's not for the timid." - Q Strange New Worlds: Mission Compendium Volume 2 contains nine ready-to-play missions for Star Trek Adventures. In this volume, gamemasters will find everything they need to expand the boundaries of known space and confront player characters with a wide variety of challenges: Solve the mystery of a plague plaguing the inhabitants of a world with a gigantic artificial ring structure. Explore the remains of a lost civilisation on a lifeless ice-age planet. Investigate mysterious events surrounding an ancient "celestial wheel" that collects valuable resources from a gas giant. Find out how two completely different species could perish together in a mass extinction. Visit a strange space habitat and try to survive the equally entertaining and deadly distractions it offers. Defuse the threatening situation on an intergalactic pilgrimage site. Encounter a renegade Ferengi and a planet with a living and intelligent ocean. Respond to a distress call from the Vulcan Expeditionary Force, whose team is trapped in a deadly phenomenon. Find out why a research facility not far from the Cardassian Demilitarised Zone has suddenly stopped responding to calls.
