Product Description

There are still adventures here. Heroes are still born here!"- Dr Julian Bashir
The Shackleton Expanse campaign volume for the Star Trek Adventures role-playing game introduces an entirely new region of the Beta Quadrant: the Shackleton Expanse. Countless wonders and mysteries await you there - including strange space phenomena that confuse ship sensors and threaten starships, ancient technologies from alien species powerful enough to wipe out entire star systems, dangerous and unknown life forms to be discovered, and much more...Even as the situation in the Alpha Quadrant becomes increasingly threatening, the Federation and the Klingon Empire have decided to explore this vast new region of space together. You and your crew have been assigned to Starbase 364 to explore the uncharted depths of the Shackleton Expanse. What will you discover there? The Shackleton Expanse Campaign contains: -A detailed sandbox setting around the Shackleton Expanse and Starbase 364 - the only Starbase jointly operated by the Federation and the Klingons. -Additional lifepath options for player characters with 5 new playable species, including the Orionians for the first time, as well as four new species from the Shackleton Expanse. -An epic 10-part campaign spanning the eras of the original series and the Next Century, centred around the mysterious Tilikaal, and 36 short missions to further expand the campaign. -Detailed hints and tools to create your own missions and campaigns in the Shackleton Expanse and beyond.
