### Product Description

- Length: 30.9 cm- Recommended age: 12- Scale: 1:144- Individual parts: 52  
**Product description** Airbus A321-200 Condor model kit: Detailed replica on a scale of 1:144 including base colours, glue and brushes  
 The Airbus A321-200 Condor model kit on a scale of 1:144 offers ambitious model builders the opportunity to recreate the world of modern aviation down to the smallest detail. Thanks to its high-precision production and realistic design, this kit will delight you with its exact cockpit replica and a multitude of finely crafted components. Ideal for advanced modellers, the kit offers a challenging but extremely rewarding building experience.  
**Scope of delivery**- Detailed cockpit replica- Finely crafted landing gear- Authentic decals for the Condor version- Basic paints, glue and brushes for the perfect start- Detailed building instructions  
**Special features** The Airbus A321-200 Condor model kit impresses with its high level of detail and the specially developed decals that create an authentic Condor version. The included base colours, glue and brushes make assembly even easier and provide everything you need to start building right away.  
**Background information** The Airbus A321neo, successor to the A321-200, is known for its innovative technology and lower fuel consumption. With this model kit, you can bring a piece of this aviation history into your own home and experience the fascination of modern technology in miniature format. The kit is aimed at experienced modellers and aviation enthusiasts who value the highest precision and attention to detail.
