Product Description

FIND THE SECRET CHARACTER!What does the Tyrannosaurus rex have to do with the Velociraptor or the Indominus Rex? Are they all bipeds, or are there other similarities? And why do they have nothing in common with Triceratops, but something in common with Mosasaurus? In Similo: Jurassic World, the aim is to find a specific dinosaur as a team. Only one player knows which of the cards on display is the one they are looking for. He always lays out a card to indicate similarities or differences. The guessers gradually eliminate one dinosaur after the other until - hopefully - only the secret dinosaur is left at the end. Dilophosaurus or Allosaurus? You'll find out in Similo: Jurassic World! You can also mix and match different editions by using one pile for the figures and the other for the clues. Can you guess which prehistoric creature from the Jurassic World series has something in common with the cat, dog and wolf from Similo: Animals? - Can be combined with Similo: Animals- Find the secret dinosaur! - Super-fast co-operative clue game - 2+ players, 10 minutes, ages 7+ - Available from Q4 2024 Warning! Not suitable for children under 36 months.
