Product Description

An exciting treasure hunt in the middle of the Caribbean - a real adventure! But be careful, because only those who look very closely and memorise the map of the mysterious treasure island will find the right route. In the cooperative memo game Käpt'n Kuck for little treasure hunters, a treasure island map is revealed at the start of the game, which all players must memorise well. The players then take it in turns to look through the telescope at randomly sorted motifs. If the group decides that the motif is part of their treasure island card, their boat moves forwards. But be careful: if a pirate flag is visible, the nasty pirates attack and try to capsize the boat in a cannon dice duel. As soon as the group reaches the island, they check whether it is the island they are looking for. If not, the players have lost and have to try again ... Käpt'n Kuck offers a solo mode as well as an advanced and a sea dog version, which not only add variety but also new challenges to the game. The game also comes with 30 exciting Klabauter stories that provide additional pirate fun.
