Product Description

Welcome to Cube Express! At the dawn of a new era, players take on the role of visionary railway tycoons tasked with expanding their rail network across 19th century landscapes as steam locomotives come to life and cities grow with new prosperity. As they lay their tracks, players transport passengers, resources and goods to their destinations, driving progress, expanding cities and reaping the rewards of their business. Competing companies battle for supremacy on the rails, and the market value of their shares is constantly changing. Markers ("cubes") are the currency of progress in Cube Express, with each one representing an important piece of the economic puzzle. Whether they represent passengers waiting for transport, resources ready for production, or lucrative orders waiting to be fulfilled, each marker holds the potential to shape the fate of your railway empire.
