

Item no.: 396705

1:72 scale model set F-22 Raptor

from **25,23 EUR**

Item no.: 396705
 shipping weight: 0.20 kg
 Manufacturer: ITALERI

Product Description

The Lockheed Martin-Boeing F-22 is a fifth-generation stealth-capable fighter aircraft used by the USA. The "Raptor" represents an extremely innovative concept and design and has two turbofan engines with a Pratt & Whitney F119 afterburner that can generate vectored thrust by moving the exhaust nozzles. The stealth capability is achieved through an aerodynamic profile and the use of "high-tech" construction materials that minimise detectability by radar. Great attention has been paid to the design of the air inlets and outlets in order to reduce the heat generated by the exhaust gases and noise emissions. The air-to-air and air-to-ground armament system is also installed in the cargo holds in the fuselage to minimise the reflections intercepted by the radar. The avionics are extremely advanced and can detect, track and acquire targets even at long ranges. Model kit, scale 1:72, 1:72 F-22 Raptor model set, transparent parts, instructions, decals, Caution! Not suitable for children under 14 years. Product details- Detailed model kit in 1:72 scale.- The high-quality kit from Italeri must be assembled by the builder.- The self-assembly is accompanied by step-by-step and illustrated assembly instructions. The assembly instructions are of course included in the scope of delivery.- Based on the assembly instructions, the precisely fitting individual parts must be assembled. The parts can be painted according to your own ideas.- Tools, glue and paint are not included with the plastic kit. These must be purchased as an option.
