### Product Description

With luck of the dice and planning skills to victory: Tic Tac Town combines simple rules with a slightly tactical game. A high degree of interaction is pre-programmed thanks to the shared dice display - perfect for the next game night! It also trains your understanding of numbers along the way. Over 70 task cards with different levels of difficulty. Hardly any waiting time when playing and the playing field can be used on both sides. Simple rules paired with light tactical play. How to play: All dice are rolled. In turn, each person chooses a die and places it on the shared game board. Everyone has task cards in their hand that require certain "dice formations" on the board. If a task is completed, the card can be played and scored. As soon as all the dice have been placed, everyone collects their completed task cards as points, draws new task cards and starts a new round.
