 Product information  
 "Backgammon Makra, small, magnetic"  
 Backgammon is an exciting game for two people. It has simple rules and you can start your first game straight away. The pieces are placed on the board after a predetermined set-up. The dice determine the moves. On each turn, you move your pieces across the board and finally off the board. Experience exciting moments after the dice have been rolled and you then have to make a tactical decision. What will your game partner roll? Will you take a risk or hedge your bets? Always keep an eye on your opponent's moves. Every roll brings new momentum and surprises to the game. Even if it looks good for you, you can be thrown out by your opponent with a piece, which you then have to bring back into play. The first player to remove their pieces from the board wins.
