Product Description

Freya, the Norse goddess of fertility, visits Thor in Asgard again after a long time to celebrate a wedding with him and Grimheim's most trusted heroes. You're not one of them! For Loki, the trickster god, this is an opportunity to destroy Freya's sacred well in Grimheim. And he is already sending his hordes of monsters from all directions to Grimheim to destroy the small village. You and your friends are now the only remaining defenders of Grimheim. The fate of the village is in your hands! Fate: The Defenders of Grimheim is a co-operative tower defence game. Players must stop invading hordes of monsters from reaching the village of Grimheim and destroying buildings there. As soon as the last building has been destroyed, they have lost the game together. If they hold out against the hordes of monsters for a certain number of rounds, they have won the game together. The new game from the makers of Terraforming Mars!
