Product Description

40 years of The Dark Eye - that also means 40 years of Aventuria! Four decades in which the multifaceted continent has been home to countless adventurers and the setting for many stories, from the smallest incidents to huge, epic conflicts. These 40 years have also seen numerous maps of the continent, and this set celebrates them all! Six large-format prints invite you on a journey through the Aventuria maps of all five DSA editions, from the hexes of the adventure expansion game to the very latest depictions of recent years. All six maps are supplied rolled up and can therefore be unrolled in all their splendour on the gaming table or draped as wall decorations. And as each card is printed on its own sheet, nobody is spoilt for choice if several are to be used at the same time. The cards included are: - The map from the Adventure Expansion Game (1985) DIN A2 - The map by Thomas Römer from "The Land of the Black Eye" (1990) DIN A1 - The map by Ina Kramer, which was first included in the DSA-3 base box (1993) DIN A2 - The map by Ralf Berszuck from "The World of the Black Eye" (1999) DIN A1 - The map by Markus Holzum, which was introduced with the Fifth Edition (2015) DIN A1 - The map by Steffen Brand, which is the most up-to-date depiction of Aventuria DIN A1 In addition, the set contains a small booklet (DinA 4, 16 pages) with further information and exclusive insights into the real-world history of the continent that has captivated us all for so long.
