Product Description

RC Scale Car Porsche 911 GT3 RS Width: 7.6 cm Length: 18.5 cm Height: 5.6 cm Item number 24662-Recommended age: 8-Scale: 1:24 Experience the thrill of racing with the 1:24 scale RC Car Porsche 911 GT3 RS! The RC Car Porsche 911 GT3 RS gives you the opportunity to experience the top-class sports car in your own nursery. This licensed replica of the legendary Porsche 911 GT3 RS not only impresses with its high-quality design, but also with its impressive performance. With a precise 2.4 GHz remote control, you have full control of the vehicle, while the powerful electric motor ensures rapid acceleration and high speeds. The sprung front wheels ensure optimum grip and make driving an exciting experience. The Porsche 911 GT3 RS RC car is characterised by its highly detailed replica and features realistic front lighting (LED), which makes the driving experience even more authentic. The robust design of the vehicle ensures that it can withstand the challenges of racing. The 2.4 GHz remote control allows you to control several RC cars at the same time, and the remote control setting is suitable for both right-handed and left-handed drivers. This means you can enjoy exciting races and action-packed driving manoeuvres with friends and family. The Porsche 911 GT3 RS RC car comes with detailed instructions and is easy to operate. Please note that 5 x 1.5V AA batteries, which are not included, are required to operate the vehicle. This RC car is perfect for children aged 8 and over who are enthusiastic about racing. It offers an exciting driving experience for beginners and advanced drivers and lets your children immerse themselves in the world of motorsport. Bring the Porsche 911 GT3 RS into your child's room and experience the adrenaline rush of racing up close! Order the Porsche 911 GT3 RS RC car today and get ready for action-packed driving fun.
