### Product Description

Uncompromising. Outstanding. Purposeful. Created for the purest driving experience. That's what Mc Laren himself says about the 765LT. All this is reflected in the remote-controlled model from Revell Control. The orange colour scheme underlines this extraordinary model, which in 1:24 scale is also perfect for racing in the living room at home or in the office. The 2.4 GHz technology enables uncompromising racing, even in the dark thanks to the LED front lighting. The remote control can be adjusted to suit both right-handed and left-handed drivers. Scope of delivery: - Model- GHz remote control- Operating instructions- Width: 8 cm- Length: 19.2 cm- Height: 4.5 cm- Recommended age: 8- Scale: 1:24
