Product Description

Historic naval power in miniature format: USS Fletcher & USS Indianapolis model kit Discover the fascination of maritime war history with our exquisite model kit of the USS Fletcher and USS Indianapolis. These two iconic ships of the Pacific War are now available as detailed 1:700 scale models. With 209 precision-crafted parts to create a realistic likeness of these historic warships, this kit offers an exciting challenge. The dimensions of the models are perfectly proportioned to represent the impressive size and power of these ships while fitting into any collection. This kit is suitable for modellers aged 12+ and combines fine art with historical learning. Scope of delivery: - Waterline hulls for both ships - Detailed decks with extensive superstructures - Authentic armament replicas - Base colours for realistic painting - High-quality glue - Precision brushes for fine details - Illustrated instructions for easy assembly This model kit is ideal for advanced modellers (level 4) who already have experience in gluing and painting models. It offers a challenging yet fulfilling experience for youngsters and adults aged 12 and up who are interested in history and modelling. Special features: - Accurate reproduction of historical details of both ships - High-quality materials for durability and attention to detail - Introductory guide for historical context and building instructions - Unique set for collectors and history buffs Background information: The USS Fletcher and USS Indianapolis were key ships in the Pacific War. The USS Indianapolis in particular is known for its tragic history: It transported components of the atomic bombs for Hiroshima and was subsequently sunk by a Japanese submarine. This model kit not only offers an opportunity to build these historic ships, but also to immerse yourself in their moving stories, making it a valuable learning tool and an impressive exhibit. - Item no.: 05644- Recommended age: 12- Scale: 1:700- Individual parts: 209
