Product Description

Authentic 3D puzzle of the Space Shuttle Discovery - masterpiece of space travel! Visit the exciting world of space travel with our impressive Space Shuttle Discovery 3D puzzle. This model kit offers an unrivalled experience, allowing you to recreate the famous space shuttle true to the original. The 126 pieces enable a detailed reconstruction that not only impresses on the outside, but also with an authentically reproduced interior. With a length of 490 mm, a width of 310 mm and a height of 335 mm on a scale of 1:200, this model is an impressive collector's item and a captivating building and display experience. The realistic design of the Space Shuttle Discovery captures the essence of space travel and lets you experience the history of manned spaceflight up close. Scope of delivery: The kit contains 126 precisely cut parts made of high-quality material, as well as a matching stand that allows you to proudly display the finished model. The clear and easy-to-follow instructions guide you step-by-step through the assembly process and guarantee trouble-free assembly of the model. This model kit is ideal for space enthusiasts and modelling fans of all ages from 8 years upwards. The easy handling makes it suitable for beginners, while the authentic details and high quality will delight even advanced and expert modellers. Whether as an impressive display piece on the shelf, an educational game or a valuable addition to your model collection, the Space Shuttle Discovery 3D Puzzle has something for everyone. The pieces are highly detailed and precisely manufactured, ensuring a realistic end result. The innovative building techniques and painted pieces make assembling an engaging and rewarding experience. In addition, this puzzle features official licences that underline the model's fidelity to the original and further increase the enthusiasm for space travel. Background information: The original model, the Space Shuttle Discovery, was part of NASA's famous Space Shuttle fleet and carried out numerous historic missions, including the deployment of the Hubble Space Telescope. With our 3D puzzle, you can recreate this exciting story yourself and take a piece of space history into your own hands. - Width: 31 cm- Length: 49 cm- Height: 33.5 cm- Item number 00251- Recommended age 8- Individual pieces 126
