### Product Description

Revell Work Station - your perfect modelling workstation for more efficiency  
The Revell Work Station (39085) is the ideal partner for all modellers who value a well-organised and efficient working environment. With numerous practical storage areas and variably arranged inserts for tools and accessories, the Work Station ensures an optimum overview and organisation. Particularly noteworthy is the special recess for the Revell cutting mat (39056), which allows you to work even more precisely and safely. Thanks to the well thought-out design, all tools are always within easy reach and safely stowed away. This minimises the risk of loss or damage and allows you to concentrate fully on model making. The high-quality workmanship and well thought-out design make this workstation an indispensable helper for any modeller who wants to take their working environment to the next level.  
Scope of delivery- Revell Work Station- 4 variable inserts for tools and accessories- Shelves for brushes, tools and small parts- Recess for the Revell cutting mat (39056)
