Tiny Adventures - Magic Clock

from **54,08 EUR**

Item no.: 400188
shipping weight: 1.00 kg
Manufacturer: Revell

Product Description

In this horological adventure, you will discover an elegant combination of gears, pendulum and hands, all driven by a rubber motor. The clock can be wound with a key, just like a timepiece from a bygone era, reflecting the aesthetics of the old days and the precision of technology. Our laser-cut wooden model kits combine maximum precision with effortless assembly that is simply a joy to assemble. With clever functions that bring the wooden models to life, they offer a fascinating experience. - Width: 14.1 cm- Length: 12.9 cm- Height: 21.8 cm- Item number 00616- Recommended age: 12- Components: 149
