Tiny Adventures - Buggy

from **22,33 EUR**

Item no.: 400182 shipping weight: 1.00 kg Manufacturer: Revell

Product Description

The buggy is a mechanical delight that goes beyond the ordinary. It is not just a static model, but a dynamic car that moves. The buggy is powered by a rubber band motor and can move forwards and backwards by about 1 metre. The pull-back mechanism ensures that your own creation comes to life. Our laser-cut wooden model kits combine maximum precision with effortless assembly that is simply a joy to build. With clever functions that bring the wooden models to life, they offer a fascinating experience.
