from **476,62 EUR**

Item no.: 370998  
shipping weight: 3.00 kg  
Manufacturer: TAMIYA

## Product Description

European three-axle tractor for large teams

The TAMIYA Scania R620 in the Blue Edition is a truly stately tractor as often seen on Europe's roads. The cab is already pre-painted blue (TS-51 Racing Blue) and covered with clear lacquer. With the more than 50 cm long and around 3 kg heavy replica of the Scania R620, impressive combinations can be put together. Under the forward tilting driver's cab you will find the tried and tested Tamiya truck technology. A type 540 electric motor delivers its power to the two rear axles via a shiftable 3-speed gearbox. A robust aluminium ladder frame gives the model the necessary stability. Thanks to the high dead weight and a fifth wheel plate, the Scania R620 Blue Edition can be coupled with numerous TAMIYA and CARSON-MODEL SPORT trailers.

**Warnings** Before you start assembling, you should have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.

**Caution:** Not suitable for children under 14 years of age.

**Technical details-** prototypical 2-axle drive- ABS injection moulded body- tiltable cab (forward)- aerodynamic package- true-to-the-original interior- aluminium ladder frame with plastic reinforcements- rear axle with metal bevel wheels- metal bevel gear differential- 3-speed manual gearbox- Saddle plate (fits all Tamiya and Carson trailers)- Leaf spring packs with shock absorbers on front and rear axles- Aluminium front axle- Aluminium drive shafts- Type 540 electric motor
