Mind MGMT

from **60,25 EUR**

Item no.: 386749
shipping weight: 1.70 kg
Manufacturer: Corax Games

Product Description

Can you stop the cunning management? The agents use their mental powers to shape the world from the darkness. Nothing is as it seems. The Management moves only in secret and has an army of immortals that knows NO mercy. Can you find and catch them before MIND MGMT wins the game and takes over the world? One of you takes on the role of the Management. Everyone else is a rogue agent. As management, you want to go to locations with the characteristics of your secret characteristic card to contact recruits. You record your steps on the secret map behind your screen. However, you can only visit each location once. As an agent, you can only move a maximum of two spaces. You can also perform one of these actions: QUESTION, DISCLOSE, LISTEN or LEAVE. Management wins if it has been able to contact 12 recruits or if you have not yet paralysed it after 16 rounds. The SHIFT system gives you 14 secret files. If you lose a game, you can open one of them. They contain new game components, new options and new rules that help the losing side. Each file also contains a mini-comic by Matt Kindt with background information and context for the content of the file. - 2-5 players - ages 13+
