from **29,67 EUR**

Item no.: 379388  
shipping weight: 0.30 kg  
Manufacturer: Feldherr

### Product Description

Being the head of a dwarf family is no longer the same. In the past, you only had to deal with rivals at eye level. Lately, the competition has increased, towering over you by several head lengths. It's hard to maintain your authority when your neck hurts and your cave is overflowing with game material. We may not have a panacea for your neck pain, but we do have the right solution for your game material. With this Feldherr organiser set made of sturdy plastic, you can successfully tame the game material from the basic game. There is also space to store the "Forgotten Peoples" expansion. The organiser offers space for all game materials from the Caverna: The Cavern Builders base game. The set fits into the original base game box. All game contents of the expansion can also be stored. All cards also fit into the card holder with protective sleeves. Without the expansion, the lid closes flush. With the expansion, the box protrudes approx. 1 cm due to the additional race boards. The large game boards are placed on the lower token holders and form an intermediate shelf. The rulebooks, appendix, smaller game boards, writing pad and people boards are stored on the upper plastic trays. Transport and tilt-proof - vertical storage possible - "Ready to Use" - no assembly required. We have taken care of the organisation in your board game box so that you don't grow grey hair. 16 tokens and a plastic card holder ensure that your game material is neatly stored in the basic game box. Everything is compactly stowed away, clearly organised and always where you need it. Time-consuming pre-sorting is a thing of the past. For a quick start to the game, simply take the token holders out of the box and place them on the table. You can then lead your family to the ballast. The set includes: Bottom plastic trays: - 4 tall plastic token holders, each with 3 compartments for wooden tokens (brown "wood" building materials, grey "stone" building materials, brown cattle, black wild boar, white sheep, grey donkey, orange "vegetable" goods tokens, yellow "grain" goods tokens, "1 nutritional value" tokens) - 4 flat plastic token holders, stackable, each with 3 compartments for wooden tokens, cardboard tokens and acrylic material (red "ruby" goods tokens, black "ore" building materials, light brown dogs, "1 gold" tokens, "2 gold" tokens, "10 gold" tokens, round harvest tokens, "jewelled fruit" goods tokens, "mushroom" goods tokens) Upper plastic trays: - 1 plastic card holder with 4 compartments for playing cards. Cards also fit with protective sleeves. - 1 plastic token holder with 3 compartments for yellow starting player token, multiplication tokens "8 animals", multiplication tokens "4x", multiple tokens, "afterthought" token and a card tray for overview cards - 1 plastic token holder with 8 compartments for stables and dwarf discs. Can be sorted by colour. - 1 plastic token holder with 14 compartments for "combat strength" tokens - 2 plastic token holders, each with 4 compartments for single tokens (facility tokens, gallery tokens, ruby mine tokens, meadow tokens) - 2 large plastic token holders, each with a compartment for double tokens (cave room/gallery tokens, meadow/field tiles) - 1 small plastic token holder with a compartment for double tiles (ore mine/deep tunnel tiles) Place the plastic trays with the wooden markers and markers, most of which represent your resources, on the bottom of the board game box. Place the large game boards on top. Place the remaining token holders and card holders on the game boards. Finally, place the rulebooks, smaller game boards, race boards, the appendix and writing pad on top. Without the expansion, the lid of the board game box closes flush. With the extension, the lid protrudes approx. 1 cm due to the additional race boards. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted. - thermoplastic - no assembly required - ready to play - 3D printed in Germany
