ORG159 - Organiser for Dune: Imperium - Basic Game Box

from **29,94 EUR**

Item no.: 379445
 shipping weight: 0.50 kg
 Manufacturer: Feldherr

Product Description

Arrakis, or Dune, is an inhospitable, merciless world. And yet there is no more important place in the Empire. For here you will find Spice, a substance so precious that the one who rules Dune holds the universe in his hands. Various houses fight and intrigue for supremacy on Dune. To strengthen your claim and support your house, the Mentats in our design department have been racking their brains for a long time. The result is this plastic Feldherr organiser, which keeps your basic game box and the game table tidy. So you always have your tokens and cards in view and the dagger in the back of the competition. - The organiser fits into the original base game box of Dune: Imperium. - The set offers space for all components of the base game. - The organiser also offers space for the expansions "Rise of IX" and "Immortality". All you have to do is remove one of the foam lids to accommodate the expansion board. The game material fits easily into the existing inserts. - Each player receives a tray with all the required tokens in their colour, a starting deck of 10 empire cards and a water marker. The tray is equipped with a card slot for setting up the cards. - 9 plastic card holders are available for standard-sized and small-format cards. - The organiser was designed for playing cards without protective sleeves. If you want to equip all cards with protective sleeves, you will have to transport some cards separately. - All elements of the organiser are individually removable and can be placed on the game table. - The game board, rule book, game plan overview and House Hagal instructions are stored between the foam lids. - The lid of the box closes flush. - Transport and tip-proof - vertical storage possible. - "Ready to use" - no assembly required. So that you can demonstrate strength in the game of houses, we have taken care of the organisation in your basic game box. Four player trays, two token holders, nine card holders and the tray for leaders ensure that every token and every card can be neatly sorted away. The clear structure of the organiser helps you to keep an overview. Put everything in the trays and store them in the board game box. Time-consuming tidying up and clearing away is a thing of the past. But this organiser not only helps you to keep your board game box tidy, it also supports you on the gaming table. For a quick start to the game, take the individual trays out of the box and spread them out on the table. This means that everything is easily accessible and ready to hand. But be careful: each player receives their own tray and therefore has the most important game materials in front of them. So be careful who you trust, otherwise you'll end up with a dagger in your back. The set consists of: - 4 plastic player trays with 8 compartments for specific material per player, sorted by colour, such as dice, control markers, agents, discs, combat markers + starting deck with empire cards + water markers - 1 plastic token holder with 6 compartments for small game material such as solari markers, spike markers, water markers, starting player markers, mentat, Alliance tokens - 1 plastic token holder with 1 compartment for small game components such as "Baron Harkonnen" tokens - 1 plastic tray with 1 compartment for large-sized cardboard components such as leaders - 4 plastic card holders, each with 1 compartment for standard-sized playing cards such as general Imperium cards, Reserve cards and House Hagal cards - 5 plastic card holders, each with 1 tray for small-sized cards such as Intrigue cards and Conflict cards. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted. - thermoplastic - made from renewable raw materials - no assembly required - ready to play - 3D printed in Germany
