Product Description

Welcome to the wilderness of North America! Here you will find breathtaking mountain landscapes and spectacular geysers. Extensive forests and the vastness of the prairie provide habitats and retreats for many animal species. Here, the players manage a national park in which each animal species should form as large a family as possible and have access to waterholes. All the better if the animals completely colonise the different landscapes. But be careful: unforeseen weather phenomena can chase the animals away. The other players also have a say in deciding which animal species are settled where, as they run their own parks. Only those who place their animals cleverly and keep an eye on the terrain types and the weather will be successful with their own national park. Caldera Park offers new challenges with lots of variance and simple rules. Fans of Savannah Park will rediscover some elements in the sequel that have been reinterpreted, varied and supplemented with new elements. Caldera Park is part of the Deep Print Games "In Nature" series and - just like Renature and Savannah Park - completely dispenses with plastic parts in the game. Caution! Not suitable for children under 36 months. - Number of players: For 1 to 4 players aged 10 and over - Playing time: 20 to 40 minutes
