from **27,81 EUR**

Item no.: 383954
 shipping weight: 0.30 kg
 Manufacturer: COBI

Product Description

The Northrop F-5A Freedom Fighter is a light combat aircraft developed by the Northrop Corporation in the 1960s. The F-5A aircraft was primarily intended for attacking ground targets and, to a lesser extent, air targets. It entered service in 1964. Its main features are manoeuvrability, ease of operation and relatively low operating cost. This aircraft was used during the conflict in Vietnam, among other things. You can build an American jet fighter with 352 COBI building blocks in a beautiful Vietnam design. The licensed set was built according to the plans of the F-5 Freedom Fighter aircraft with great attention to the brick details. The aircraft features movable ailerons, armament and removable landing gear. The cabin can be opened and a simplified pilot figure with helmet can be placed inside. The set includes a display stand made of clamping bricks and a sign with the name, scale of the aircraft and the US flag. The 1:48 scale model complements the collection of aircraft that have appeared as part of the Armed Forces collection! Build it! - 352 high quality elements - made in the EU by a company with over 20 years of tradition - meet the safety standards for children's products - fully compatible with clamp blocks of other brands - blocks with imprints do not deform and do not fade during play or under the influence of temperature - clear and intuitive instructions based on drawings and symbols - 100% prints, no stickers - block plane stand - a label with the name of the set - model dimensions (L x W x H): 290 mm (11.42 in.) x 175 mm (6.9 in.) 85 mm (3.3 in.) - ages 7 and up
