Product Description

A people as ancient as the steppe they call home, the Lizard Folk whisper of war in uncanny, hissing voices. Nearby kingdoms live in fear of their brutal raids and the destruction left in their wake. Some say they eat the dead. Others believe they wield alien magic. One thing's for sure: no one has dared venture into their realm for many a year. Until now. Inside this box is everything you need to run a reptilian roleplaying encounter. Perfect for new and experienced players, Steppe of the Lizard Thane is ready to play, right away, as part of a new or existing campaign. The Lizard Folk are brutal warriors who fight with savage ferocity. Their lightning raids leave few survivors. Can you survive against these cold-blooded combatants of the steppe? Danger, discovery, and adventure await! Designed to work with the 5th edition of the world's favourite roleplaying game, this set gives any Gamemaster the tools to create a cinematic experience that will challenge and thrill their players.
