Product Description

Your complete tavern kit, from the creators of Epic Encounters. Every tavern deserves to be epic! Taverns are a frequent feature in almost every fantasy roleplaying campaign, yet they're rarely given time to shine. That ends now. Your party's tavern visits will no longer be a means to an end. With this 5e-compatible kit, you can make every tavern encounter epic, whatever your level of experience — with minimum effort! Inside, you'll find 10 fully-realised fantasy inns, 60 colourful characters to drop in, and riotous tavern games for your players to test their wits and raise their spirits! And that's not all. In England, we call pubs 'locals', and every local has its legend...
