Product Description

Product information "WFRSP - The Enemy Within #04 - The Horned Rat" My friends in flux! We have sown glorious chaos, but to bring the time of change, we must act together under a champion in the shadows. The Horned Rat is the fourth volume of the revised and updated Directors Cut of The Foe Within, one of the most popular roleplaying campaigns ever written. This instalment builds on the dramatic events at the end of The Grey Eminence, as the valiant heroes are taken into the service of the city of Middenheim and face yet more drama and intrigue. In the penultimate volume of the five-part series of dark and dangerous adventures for the Warhammer Fantasy Roleplaying Game, the tables are turned as enemies who have pursued the characters since the beginning of the epic campaign are forced to defend themselves. The time has come to expose their machinations and dismantle their organisation. The characters can't afford to let their guard down and celebrate their victories as a new threat emerges from under their feet!
