shipping weight: 1.40 kg

Manufacturer: Steamforged Games

Product Description

Monster hunters have an arsenal of weapon types at their disposal. In this tabletop world, hunters seek to master their chosen weapon, crafting ever more powerful upgrades as they get closer to facing the most dangerous predator... Transform your game with the Hunter's Arsenal, including six new-and-unique hunters for epic monster-hunting action! Hunt dangerous beasts with the Long Sword, Hammer, Gunlance, Light Bowgun, Lance, or Hunting Horn, each with their own attacks, equipment upgrades, and special rules. Compatible with the Ancient Forest and Wildspire Waste core sets, and the Elder Dragon expansions, the Hunter's Arsenal will open your world to new possibilities in both campaign and one-shot play. In campaign play, your hunter determines your weapon type for a campaign. The hunters you and your party members choose, the upgrades you decide to craft, and the monsters you hunt to craft them, will change your path — and the challenges you'll face — as you slay your way through the New World. Want a single-session game? Dive into one-shot battles instead! This set includes arena quest loadouts to pit these hunters against Ancient Forest and Wildspire Waste monsters.
