### Product Description

**BLOQUEO** Bloqueo natur by Timo Diegel A three-dimensional strategy game Clever moves, strategic blockades and high towers score points A turn always consists of 3 parts: Move your pawn at least 2 spaces, place your own octagon piece and occupy it with two blockade tiles. Turn by turn, each player occupies squares with their octagon tiles. Ideally, these squares can be connected to form areas. The prerequisite is that the squares are at right angles to each other. If the player manages to have a high tower within a large area, they are sure to score many points. Which piece do I move? How do I skilfully place a piece, protect it and possibly block the opponent's moves? Will I manage to capture a rook for myself? All this makes a game interesting and challenging! Attention! Not suitable for children under the age of three. Small parts can be swallowed. For 2 players aged 10 and over Duration approx. 20 - 30 min. Game board: solid beech, oiled, 25 x 25 cm Game pieces are black and white wooden octagon pieces 3 game pieces in red, blue and green Blockade tiles in red, blue and green
