### Product Description

**RUKUNI** by Andreas Kuhnekath-Häbler  
The group needs lots of towers. There are six red towers on the board. Players take it in turns to move any one tower, always in a straight line and without skipping other tokens. After each move, they place one of their own pieces next to the active tower. Move by move, the pieces on the board increase in number and groups of pieces of the same colour are formed. Skillfully moving the towers and integrating them into your own groups earns you victory points at the end. A group of tiles of the same colour without an adjacent tower is worthless and you should not let your opponent block your access to towers. Caution! Not suitable for children under the age of three. Small parts can be swallowed. - For 2 players aged 8 and over - Duration: approx. 15 - 30 minutes - Game board: solid beech, 20 x 20 cm - Game pieces are wooden plugs in red, white and grey
