## 53410306 - Solitaire

from **47,89 EUR**

Item no.: 400676

shipping weight: 0.70 kg

Manufacturer: Gerhards Spiel und Design

### Product Description

Solitaire - wooden cylinders with easy-to-grip wooden cylinders. At the request of our customers, we now also produce this one-person game in a different version. We have kept the same board size, but changed the game pieces. We use large wooden cylinders that stand firmly in the game board, do not slip and, above all, are easy to grip. The wooden cylinders are available in red, blue and green. If you do not specify a colour, we will supply you with red wooden cylinders. The middle playing field is empty for the starting line-up. You jump over a neighbouring piece to an empty space behind it, always horizontally or vertically, not diagonally. The piece you jump over is removed from the playing field. At the end, only one piece should remain - on the middle space. This variant also includes pieces and instructions for the 2-person game "Fox and Geese". Caution! Not suitable for children under the age of three. Small parts can be swallowed. Features: - for 1 (or 2) players aged 8 and over - game board made of solid beech, oiled - 25 x 25 x 2 cm - 34 wooden cylinders in red, blue or green
