Product Description

Emperor Hal I rules over the Raul Empire from Gareth. At his side are advisors and warriors of the realm who leave their mark on history. This is a truly golden era, a time of great heroes who rise to the highest circles. But in the distance and in the shadows, intrigues are being spun to weaken the realm. This compendium contains additional material as a supplement to the period game aid The Era of the Golden Emperor, which was unlocked through crowdfunding. Expand your DSA game with legendary locations, your own barony for your heroes and heroines, six short adventures and much more!
