Product Description

A thousand years ago, the rebels of Gareth defeated the army of the cruel Empress Hela Horas and her demons, for the gods themselves fought on the side of the Garethians. Visit the historical sights: the battlefield, the "Museum", the mighty Temple of the Four and the Tomb of Brig-Lo. Enjoy the hospitality of the Brig-Lo winegrowers and even acquire a valuable souvenir. Today, the area is completely safe. The only question is why people keep failing to return from the old ossuary near the temple. The "Tomb" is an ideal adventure for newcomers to the world of the Black Eye - masters and players alike - but even experienced adventurers can experience a few surprises in this historical scenario. This is a new edition of the adventure for the second edition of The Black Eye.
