Product Description

On 7 February 1984, the era of the Black Eye began at the International Toy Fair in Nuremberg with the first adventure base game. Like no other game, it has shaped and influenced the pen & paper role-playing game landscape in Germany for decades. The Bibliography of the Black Eye 1984 1993 lets you immerse yourself in the early past of the Black Eye in a whirlwind of browsing, nostalgia and history. By means of atmospheric flap texts, it takes you back in time and lets you reminisce or allows you to get to know the early days of this role-playing game so steeped in history. In addition to detailed information on all official Black Eye products from the years 1984 1993, these are also peppered with other special features and anecdotes. In between, there are historical texts and short essays on many fascinating details, endearing quirks and fantastic stories. Time and again, you come across beautiful illustrations and historical commentaries by the influential figures of this era. In further chapters, special series, the Aventurische Bote (Aventurian Messenger), digital material far from the pages, stories of all kinds, board games and, most recently, a selection of merchandise and advertising material are also presented and dealt with in detail. The Bibliography of the Black Eye 1984 1993 is aimed at all those who would like to take a look into the past of Germany's largest role-playing game.
