### Product Description

This economy set is easy on your wallet and allows you to keep an eye on several opponents at once. Never take your eyes off your opponents in battle. This is one of the most important rules for survival in the fantastic worlds of Gloomhaven, Gloomhaven: The Paws of Lowen and Frosthaven. We have put together a set of four practical card holders for your Monster Deck cards so that you don't accidentally get beaten up by your equipment cards. That way, you'll always know who's raising their sword against you and won't get confused in the heat of battle. - The card deck holders are compatible with Gloomhaven, Gloomhaven: The Lion's Paws and Frosthaven and will enhance your gaming experience. - Whether you play Gloomhaven, Gloomhaven: The Lion's Paws or Frosthaven, each tray offers space for the small-format playing cards from the monster decks. - The cards also fit with sleeves (max. outer dimensions: 74 mm x 48 mm). Up to 35 cards with sleeves and up to 70 cards without sleeves fit in a plastic tray. - Each deck holder has 2 compartments. The deck is in the rear compartment and the discard pile is in the front compartment. This allows you to draw cards directly and discard them at the front. - The discard tray has a sloping design. The diagonal perspective significantly improves the view of the attack modifiers. Each card holder has the following external dimensions: 77 mm long x 77 mm wide x 47 mm high. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted. - thermoplastic - made from renewable raw materials - no assembly required - ready to play - 3D printed in Germany
