from 24,80 EUR

shipping weight: 0.50 kg
Manufacturer: Feldherr

Product Description

Neatly stored and safely transported - your models are safe with this Feldherr full-size foam insert for TT scale model railways. Seven compartments - customised for TT scale model railways, in an upright position - offer your wagons and locomotives reliable protection for storage and transport. Several trains and wagons can be stored next to each other in one compartment. We offer matching foam spacers (HS040A003) to prevent bumping into each other or unintentional coupling. The models are thus safely stored all round and permanently protected against damage and wear and tear such as scratches and chipping paint thanks to the high-quality foam. Each of the 7 compartments is 320 mm long x 30 mm wide x 40 mm deep. Suitable for models in nominal size / TT gaugeThe full-size foam insert has the following dimensions: 345 mm long x 275 mm wide x 50 mm total height (40 mm usable height + 10 mm foam base). The set also includes the matching foam lid. This is then placed on the filled insert so that nothing can fall out or hit the lid of the box during transport. The insert is ideally stored in the Feldherr storage box FSLB055. The box is made of coated, double-walled cardboard. This makes it not only pleasantly light, but also particularly tear-resistant and stable. This means that the models can be stored safely and protected from dust and transported easily thanks to the flat, compact shape. Storage box dimensions: approx. 345 mm x 275 mm x 55 mm. External dimensions: approx. 365 mm x 290 mm x 60 mmThe set consists of:-1 Feldherr storage box FSLB055-1 full-size foam insert with 7 bars for TT scale models - upright (FS050A004)-1 foam lid- high-quality, fine-pored foam - Made in Germany- chlorine-free and acid-free
