from **24,80 EUR**

Item no.: 400955  
shipping weight: 0.40 kg  
Manufacturer: Feldherr

### Product Description

Neatly stored, clearly presented and safely transported. With this Feldherr storage box including foam insert for model railways in H0 scale, your models are safe. The set consists of:- 1 Feldherr storage box FSLB055- 1 full-size foam insert with 4 bars for models in H0 scale - horizontal (FS050A005)- 1 foam lid Four compartments, customised for horizontal storage of model railways in H0 scale, offer your wagons and locomotives reliable protection for storage and transport. Thanks to the horizontal position, the insert can also be used as a display for presenting your own model railway collection. Several trains and wagons can be stored next to each other in one compartment. We offer matching foam spacers (HS040A002, HS020A001) to prevent bumping into each other or unintentional coupling. The models are thus stored safely all round and are permanently protected against damage and wear and tear such as scratches and chipping paint thanks to the high-quality foam.- Each of the 4 compartments is 320 mm long x 55 mm wide x 40 mm deep.- Suitable for models in nominal size / H0 scale The set also includes the matching foam lid. This is then placed on the filled insert so that nothing can fall out or hit the lid of the box during transport. The insert is ideally stored in the Feldherr storage box FSLB055. The box is made of coated, double-walled cardboard. This makes it not only pleasantly light, but also particularly tear-resistant and stable. This means that the models can be stored safely and protected from dust and transported easily thanks to the flat, compact shape. Dimensions of the storage box:- Inside: approx. 345 mm x 275 mm x 55 mm- Outside: approx. 365 mm x 290 mm x 60 mm The foam insert has the following dimensions: 345 mm x 275 mm x 50 mm total height (40 mm usable height + 10 mm foam base).- high-quality, fine-pored foam - Made in Germany- chlorine-free and acid-free
