from **31,48 EUR**

Item no.: 400951
shipping weight: 0.90 kg
Manufacturer: Feldherr

Product Description

Neatly stored and safely transported. The Feldherr foam insert for Z scale model railways in the sturdy Feldherr storage box. Ten compartments - customised for Z scale model railways in upright position - offer your wagons and locomotives reliable protection for storage and transport. Several trains and wagons can be stored next to each other in one compartment. We offer matching foam spacers (HS025A002) to prevent bumping into each other or unintentional coupling. The models are thus safely stored all round and permanently protected against damage and wear and tear such as scratches and chipping paint thanks to the high-quality foam. - Each of the 10 compartments is 325 mm long x 17 mm wide x 25 mm deep. - Suitable for models in nominal size / Z scale. The foam insert has the following dimensions: 345 mm x 275 mm x 35 mm total height (25 mm usable height + 10 mm foam base). Dimensions of the storage box: - Inside: approx. 345 mm x 275 mm x 40 mm - Outside: approx. 365 mm x 290 mm x 45 mm. The set consists of: - 1 Feldherr storage box FSLB040 - 1 full-size foam insert with 10 bars for Z scale models - upright (FS035A010) - 1 foam lid. The matching foam lid is also included in the set. This is then placed on the filled insert so that nothing can fall out or hit the lid of the box during transport. The insert is ideally stored in the Feldherr storage box FSLB040. The box is made of coated, double-walled cardboard. This makes it not only pleasantly light, but also particularly tear-resistant and stable. This means that the models can be stored safely and protected from dust and transported easily thanks to the flat, compact shape. - High-quality, fine-pored foam - Made in Germany - Chlorine-free and acid-free
