Product Description

Army Painter: Quick Shade, Dark Tone (250ml)

What is Quick Shade? Quick Shade is based on a unique formula that allows you to shade any miniature to perfection. Once a miniature is primed and painted and the base is designed, you dip the figure briefly in Quick Shade, let it dry and you're done! The results are spectacular, and the various galleries on the website: the ArmyPainter.com show and explain how easily these ingenious results can be achieved.

Quick Shade:

- Super quick and easy to use!
- Looks fantastic on any model!
- Comes in three different shades! Dark Tone: The ultimate shading for metal and armour

Dark Tone uses black pigments to give the figures a very fine black shade. Dark Tone is also very suitable for giving figures such as tanks, robots, chaos creatures or knights a sharp contrast.

Attention! For home use only.

Attention! Use under direct adult supervision

Attention! Use under adult supervision. Not suitable for children under 12 years.
