Product Description

The discovery of the breathtaking Amethynia Valley has opened up a world of new possibilities for the Paths. The Valley's trademark enigmatic rift technology allows an object to be present in two places at once - and when used on their exosuits, the Paths can practically double their efficiency. The process is not entirely stable, but fortunately some of the Valley's inhabitants are willing to join the Paths as machinists to mitigate the dangers of the so-called 'blink'. As the Age of Mass Exodus and the formation of the Path of Unity have slowed preparations for the dreaded Impact, the extra efficiency gained through Rift technology is needed now more than ever. Rifts of Time can also be played in solo mode.
