### Product Description

The monsters are busy building. Towers are built and the monsters always want to move into the individual floors in pairs. The rules of the game are the same as those of the world-famous classic game memory: you are looking for pairs of monsters that have the same colour and number of eyes. The pairs of cards are placed on top of each other during the course of the game to create the three-dimensional buildings. Whoever completes their 3D tower first wins. Important information Caution! Not suitable for children under 36 months.
